Dear Steve and Jill:

Thank you very much for the great job you did and the great price. Everyone found the retreat a positive experience, and all of us felt it was extremely useful and accomplished a lot, considering our current environment. Hopefully, we will survive the next 12 months and achieve some success such that we can do another one.

You both make a great team. Real balance was achieved throughout the day. The day far exceeded my expectations and the results were extremely useful for the business plan. I sent Claudia the invoice and asked her to cut your check as soon as possible so I can mail it out to you quickly.

Thanks again,
