Dear Jill,

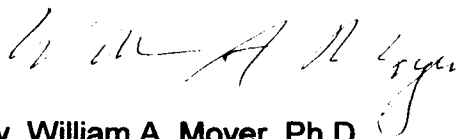

Thanks so much for facilitating our ministry team leadership training. The highlight of the afternoon was the discovery of our communication styles and methods. Our ministry teams are still talking about the different behavior styles and how they affect our communication. Your high-energy approach was both fun and practical for our ministries. It was important, as well as very helpful, to have the material linked to Scripture.

We were particularly impressed with the way you connected the learning activities with practical application for our own ministries. You taught us "how to fish" instead of merely "feeding us fish," the latter of which is often the case in many programs like these. I've been through several leadership retreats, but this was one of the best—if not the best I've experienced.

This training is proving invaluable to us as we continue working together to discern God's vision and mission for Hillandale Baptist Church. Thank you for being such an open vessel for God to work through in order that we might serve our Lord and His people more effectively.

Again, thank you so much for a memorable leadership retreat.

Yours in Christ,

Rev. William A. Moyer, Ph.D.
