Dear Jill:

Thank you for participating in our February 25, 1998 Women Entrepreneurs Workshop.

Your Mind Mapping gave us a brief insight into the program you give on a broader basis and was an extremely interesting approach to setting career and personal goals. As you indicated, more time would allow you to expand on the points just touched on in the time allowed. I would like to explore your workshop ideas, I will call you shortly.

Again thank you and I will phone you sometime in March.

Sincerely,

Carol Steadman
